Two weeks ago, my mom and I spent a weekend at the “new” [Camelback Resort](#) — we stayed in one of its newly redesigned Queen Room Suites; it was stunning. Our weekend was jam-packed with activities, exploration and experiences.

Our first day we spent the afternoon at the resort's indoor waterpark, [Aquatopia](#). We had our own private cabana where we could relax, and enjoy our lunch and time there. Aquatopia is amazing and filled with fun! It has 13 slides, a lazy river, wave pool, kid areas and much more. My mom isn't a big waterslide person so I went down a couple, we walked around to look at everything and then relaxed on the lazy river for a little bit.

After our day at the waterpark, we got ready for dinner at one of the restaurants on property, [Berrelli's Italian Chophouse](#). We loved the restaurant — the food was great, everyone was so nice and accommodating. We even got to hangout in the new cigar lounge downstairs; if you are ever there, make sure to check it out!

After dinner, we were a little tired from travel, so we decided to just call it a night.

The next morning, we woke up, went to breakfast and then set out to ride the Appalachian Mountain Coaster. I was so excited, but my mom was a little nervous. We both ended up loving it and wishing we could ride it a few more times.

The rest of the day, we explored the surrounding area and did some shopping at the nearby outlets. Overall, it was a great experience and we can't wait to go back and bring the rest of the family!!
